

Anushka Dhiman

anushkadhiman101@gmail.com | 9027996957 | [LinkedIn](#)

Education

VIT Bhopal University, Bhopal
B.Tech in Computer Science (AI & ML)
Delhi Public School, Meerut
Class X and XII

Sep 2023 – Jun 2027

Experience

Infosys Springboard — AIML Intern (Remote)

Nov 2025 – Dec 2025

- Developed AI-ImpactSense, an earthquake impact prediction system.
- Prepared datasets and implemented the ML prediction workflow.
- Evaluated and refined models to improve accuracy.

Virsis — Project Intern (Remote)

Jan 2025 – Sep 2025

- Improved website visibility through SEO and keyword optimization.
- Analyzed site traffic and assisted in SEO reporting.

Skills

Programming Languages: Python, C++, Java

Machine Learning & AI: Machine Learning, Deep Learning, NLP, Computer Vision, OpenCV

Frameworks & Libraries: PyTorch, TensorFlow, Scikit-learn, Pandas, Matplotlib

Cloud & Deployment: AWS (EC2, S3, Lambda, VPC), Flask API, Streamlit, Gradio

Concepts: Generative AI, RAG, Prompt Engineering, LLMs, Vector Databases

Projects

AI-ImpactSense | Earthquake Impact Prediction System

[Website](#) | [GitHub](#)

AI-driven system for predicting earthquake impact levels and generating real-time alerts. Built and deployed a Streamlit web application with color-coded risk visualization and improved model reliability through data preprocessing.

Tech Stack: Python, Pandas, Scikit-learn, Matplotlib, Streamlit

Netra AI | Smart Vision Assistance System

[GitHub](#)

Developed Netra AI, a vision-based system with obstacle detection, text recognition, and fall detection features using OpenCV and deep learning models, deployed on a live interface for real-time assistance.

Tech Stack: Python, OpenCV, TensorFlow, PyTorch, Streamlit

Dog Breed Classifier | Deep Learning

[GitHub](#)

Built a multi-class dog breed classifier using TensorFlow/Keras with image preprocessing and data augmentation, deployed via a web interface.

Tech Stack: Python, TensorFlow, Keras, OpenCV, Flask/Streamlit

Certifications

- Applied Machine Learning in Python — University of Michigan (Nov 2025)
- Job Simulation — Forage Academy (2024)
